MILT CANIFF, CREATOR OF Steve Canyon, is the target of an attack in a Russian magazine named Neva. The magazine reveals the startling news that the U.S. uses comic strips to propagandize youngsters and calls "Milton Caniff the worst offender—in fact, everybody knows he's a CIA agent!" Replies Caniff, "The poor CIA. First it was blamed for the Bay of Pigs fiasco, then the Dominican Republic confusion, then that incident in Singapore—and now me!"
